PADI Advanced Open Water Diver Course

Take the next step in your diver education by enrolling in the PADI Advanced Open Water Diver Course today. The Advanced Open Water Diver Course helps you increase your confidence and build your SCUBA skills so that you can become more comfortable in the water. This is a great way to get more diving experience, while continuing to learn under the supervision of a PADI Instructor. This course helps you build on the skills you have previously learned in the PADI Open Water Diver Course.

What Will I Learn

The Advanced Open Water Diver Course consists of five open water training dives. There are two core, or required, dives which are underwater navigation and deepwater diving. The deep dive is to a depth of between 60 and 100 feet. There are also three Adventure Dives in this course and these dives are your choice.

Some of the Adventure Dives you can choose from are:

- Night Diver
- Search and Recovery Diver
- Underwater Digital Photographer
- Boat Diver
- Dry Suit Diver
- Peak Performance Buoyancy
- Dive Propulsion Diver
- Wreck Diver

Prerequisites

- Open Water Diver
- 15 Years Old
(12 for Junior Advanced
Open Water Diver)

When Should I Take This Course

Most divers enroll in this course immediately upon completing their PADI Open Water Diver Course. In fact, some divers start the Advanced Open Water Diver Course on the same weekend as their Open Water Class.

What Diving Equipment Will I Need

Each diver needs a complete set of SCUBA equipment. Advanced Open Water students receive a 50% discount on rental equipment for their course.

The E-Learning Alternative

E-learning provides you with a great alternative to traditional SCUBA classes. The class work is completed online at your convenience. This alternative is a great option for busy professionals. Once you complete your e-learning and bring your certificate of completion to Texas Dive Center, you will receive a \$25 gift certificate towards your next purchase.
