PADI Rescue Diver Course

The PADI Rescue Diver Course is one of the most challenging and rewarding programs you will ever take, and is typically described as serious fun. The PADI Rescue Diver Course will expand on what you already know and teach you how to prevent problems and manage them if they occur. This course, while it will challenge you, is fun and exciting.

What Will I Learn

The PADI Rescue Diver Course consists of class and in-water sessions. These training sessions will prepare you to prevent problems and manage dive emergencies.

Knowledge Development:

- Self Rescue
- Recognizing and Managing Stress in Other Divers
- Emergency Management and Equipment
- Rescuing Panicked Divers
- Rescuing Unresponsive Divers

Open Water Training:

- 10 Skills
- 2 Realistic Scenarios

Prerequisites

- Advanced Open Water Diver
- 12 Years Old
- Trained and Current for First Aid and CPR within the past 24 months. (Ask us about Emergency First Response, Primary and Secondary care).

What Diving Equipment Will I Need

Texas Dive Center will furnish all the SCUBA equipment required for your PADI Open Water Diver Course. There is no extra charge for the use of rental equipment.

Each Student is responsible for their own mask, snorkel, fins, and boots. At Texas Dive Center, we have a large selection of equipment to choose from and each student receives a special student discount.

The PADI eLearning Advantage

PADI eLearning provides you with a great alternative to traditional SCUBA classes. The class work is completed online at your convenience. This alternative is a great option for busy professionals.
